

### **AMENDMENTS TO THE SUBSTITUTE SPECIFICATION**

**Please amend the paragraph on page 3, line 10, to line 14, as follows:**

The plate 14 comprises in this case a first plate 31 fastened onto the tubular metal structure 13 for example by means of welding. A second plate 30, on which the hook 15 is fastened, is engaged with the first plate 31. They are fastened to each other so that they can be separated, by means of a pin 32 that comprises a ring 33 to facilitate its removal, which pin is positioned in a hole 34 made in the upper part both of the plate 31 and of the plate 30. The ring 33 forms a manual grip for removal control.
